# **NORTH** Safety Products

North Safety Products is the most diversified manufacturer of Safety and Personal Protective Equipment (PPE) in the world, with fourteen complete product lines, manufactured in ISO 9000 certified plants and employing over 3,000 people throughout the world.

North works closely with distributors and end users alike through innovative product design, quality manufacturing, solid marketing, training and support to our customers. Our goal is to enhance worker safety, improve productivity, and create confidence on the job and in the market place.

## **HAND PROTECTION**

Hand Protection is a very complex product line. Each and every worker needs a different type of hand protection, depending on their application and work environment. You may need to protect your workers from harmful liquids, cuts, punctures, burns, hi-heat, cold, etc. These are all related to the level of protection needed in various industries. This offering is so vast, in order to cover all aspect of the daily work in each field of activity.

North has taken the lead in this market by offering niche products such as the highly specialized Silver Shield line, along with Viton, Butyl, Nitrile, Neoprene, Rubber, Kevlar, etc. Included in this catalogue is a complete line of disposable gloves, liquid proof, cut resistant, cut & sewn nitrile gloves, winter lined gloves, as well as long sleeve gloves for general and sand blasting purposes.

# HAND PROTECTION

## Research and Development

Research and development is an ongoing process integrating our expertise in lab work, ergonomic and manufacturing. New products are being developed in all of our many factories located around the world. Technical data is available on almost 70,000 various chemical products, so that we can direct you to the right product for the correct application in various environments.

## Manufacturing

North has manufacturing operations around the world to provide a wide variety of products that meet consumer needs with consistent quality, performance and comfort.

## Quality and Standards Testing

North manufactures and sells hand protection around the world. The most comprehensive standard for glove performance, classification and marking was developed by the European Committee (CE). These standards provide performance ratings and/or requirements for mechanical, chemical, micro-organism, thermal, cold, radiation protection and all sizes are standardized. North has decided to adopt these standards for its worldwide sales. Our hand protection protects, meets or exceeds these standards. North has implemented this standard to assure that all North gloves meet and/or exceed consumer needs with consistent quality, comfort and performance.

## Training

As a world class manufacturer of personal protective equipment (PPE), North offers a wide diversity of comprehensive in-house and onsite training programs on all product lines. Our glove experts are at your service whenever you need help.

# DISPOSABLE GLOVES

Food handling, food processing, inspections and laboratory work are all applications that require gloves that can provide dexterity and protection to the user without contaminating the products. North Safety Products carries a complete line of disposable gloves to meet your needs. We offer a wide selection of natural rubber gloves, as well as gloves that do not contain latex proteins such as nitrile, vinyl and polyethylene, powdered & powder free. These gloves provide a protective barrier against mild irritants.

## P-GLOVE SERIES

### POLYETHYLENE DISPOSABLE

PGLOVE

#### Features/Benefits

- Thin gauge gloves provides good dexterity for working with food
- Complies with CE, USDA and FDA regulations, 21 CFR for use in food processing
- Embossed seamless polyethylene is powder free and sulfur free

Series	Description	Unit/ PK	BX/ Cse
PGLOVE	"P-Glove" high sensitivity polyethylene gloves - clear Sizes: S, M, L	100	100

## VINY-TASK SERIES

### VINYL DISPOSABLES

T525 Series

#### Features/Benefits

- 100% vinyl does not contain allergy-causing proteins
- Excellent sensitivity and dexterity
- Complies with CE, USDA and FDA regulations, 21 CFR for use in food processing
- Available in lightly powdered or powder free

#### 5 mil (0.13 mm) - 9" (23 cm) - Rolled Cuff

Series	Description	Unit/ BX	BX/ Cse
T525	Viny-Task - Vinyl powdered disposable gloves Sizes: S, M, L, XL	100	10
T525PF	Viny-Task - Vinyl powder free disposable gloves Sizes: S, M, L, XL	100	10

## SENSI-TASK SERIES

### NATURAL RUBBER DISPOSABLES\*

T425 Series

#### Features/Benefits

- 100% natural rubber
- Superior dexterity
- Complies with CE, USDA and FDA regulations, 21 CFR for use in food processing
- Available in lightly powdered or powder free

#### 5 mil (0.13 mm) - 9" (23 cm) - Rolled Cuff

Series	Description	Unit/ BX	BX/ Cse
T425	Sensi-Task - AQL 4.0 - Natural rubber powdered disposable gloves Sizes: S, M, L, XL	100	10
T425PF	Sensi-Task - AQL 4.0 - Natural rubber powder free disposable gloves Sizes: S, M, L, XL	100	10

\* Caution: These products contain natural rubber which may cause an allergic reaction in some individuals.

## DEXI-TASK SERIES

### EXAMINATION & INDUSTRIAL GRADE NITRILE DISPOSABLES

LA049 Series

#### Features/Benefits

- 100% nitrile
- Provides more puncture resistance than rubber or vinyl gloves
- Does not contain latex proteins that can cause an allergic reaction
- Complies with CE, USDA and FDA regulations, 21 CFR for use in food processing
- Available in powdered or powder free

#### 5 mil (0.13 mm) - 9" (23 cm) - Rolled Cuff

Series	Description	Unit/ BX	BX/ Cse
LA049	Dexi-Task - AQL 1.5 - Nitrile powdered textured examination gloves, blue - Sizes: S, M, L, XL	100	10
LA049PF	Dexi-Task - AQL 1.5 - Nitrile powder free textured examination gloves, blue - Sizes: S, M, L, XL	100	10
LA049IND	Dexi-Task - AQL 4.0 - Nitrile powdered textured industrial gloves, blue - Sizes: S, M, L, XL	100	10
LA049PFIND	Dexi-Task - AQL 4.0 - Nitrile powder free textured industrial gloves, blue - Sizes: S, M, L, XL	100	10

## MECANO-TASK SERIES

### INDUSTRIAL GRADE NITRILE DISPOSABLES

LA0812 Series

#### Features/Benefits

- 100% nitrile
- Provides more puncture resistance than rubber or vinyl gloves
- Does not contain latex proteins that can cause an allergic reaction
- Complies with CE, USDA and FDA regulations, 21 CFR for use in food processing
- Ideal for mechanic and bodyshop environments

#### 8 mil (0.20 mm) - 12" (30 cm)

Series	Description	Unit/ BX	BX/ Cse
LA0812	Mecano-Task - AQL 4.0 - Blue nitrile powdered gloves, diamond embossed grip - Sizes: S, M, L, XL	50	10

## CHEMSOFT® SERIES

### INDUSTRIAL GRADE NITRILE DISPOSABLES

CS042W

#### Features/Benefits

- Patented formulation provides better chemical resistance for incidental exposure and a more comfortable feel.
- 100% Nitrile does not contain allergy-causing proteins.
- Rolled cuff prevents tearing while donning.
- Complies with USDA requirements for use in food processing.
- 12" or 16" length provides extra protection for arms. Can be fastened to protective gown

#### 4 mil (0.10 mm) - Rolled Cuff

Series	Description	Unit/ BG	BG/ Cse
CS042W	Chemsoft - Off white nitrile powder free industrial gloves 12" (30 cm) - Sizes: 6XS, 7S, 8M, 9L, 10XL	100	10
CS046W	Chemsoft - Off white nitrile powder free industrial gloves 16" (40 cm) - Sizes: 6XS, 7S, 8M, 9L, 10XL	100	10

# CHEMICAL RESISTANT GLOVES

North Safety Products leads the industry in providing chemical resistant gloves for various industries that involve highly toxic chemicals. Since the 1960's North Safety Products has been manufacturing Butyl Gloves, which have excellent permeation resistance to gas or water vapor. In the 1990's North Safety Products launched the Silver Shield® 4H® Gloves, which provides chemical resistance against more than 290 organic chemicals. Innovations like these have made North the leader for providing gloves to the chemical, food processing, military and now domestic preparedness industries. As we expand our line of chemical resistant gloves, we strive to provide high quality, comfort and performed gloves. Here are the newest additions to the North line of chemical resistant gloves (light & heavy latex, flock and chlorinated, neoprene, neoprene over latex, PVC and nitrile). All these to help you source from one brand.

## UNSUPPORTED

### 100% LATEX FLOCK LINE SERIES

**UNSUPPORTED  
NATURAL RUBBER\***

#### Features/Benefits

- 100% natural rubber has excellent dexterity, elasticity, and tensile strength for long wear and comfort
- Honey comb embossed pattern provides additional grip on wet or dry surface
- 18 mil (0.45mm) glove provide good chemical, tear and puncture resistance
- Available in 2 colors for easy identification around food products
- Flocked lining to absorb perspiration and aid in donning and doffing

**18 mil (0.45mm) - 12" (30 cm)**

# CHEMICAL RESISTANT GLOVES

## FLEXIBLE FILM

### SILVER SHIELD® / 4H® SERIES - GLOVES

UNIQUE FLEXIBLE FILM

#### Features/Benefits

- Resistant to over 290 different chemicals: alcohols, aliphatics, aromatics, chlorines, ketones, esters
- Low cost, disposable gloves do not have to be recycled and be readily available to workers
- Does not contain chemical accelerators that can cause allergic reactions
- Ambidextrous
- Can be used as a secondary gloves
- Allows worker maximum protection in heavy duty jobs where the dangers of mechanical damage to gloves are high

Series	Description	PR/BG	PR/Cse
SSG	SilverShield - Unique flexible film glove - length 14.5" (37 cm), for sizes: 6XS,7S,8M - length 16" (41 cm) for sizes: 9L, 10XL, 11XXL	10	50
SSG29	SilverShield - Unique flexible film glove with sleeve, total length 29" (74 cm) - Size:10XL only	10	50

### SILVER SHIELD® / 4H® SERIES - ACCESSORIES

UNIQUE FLEXIBLE FILM

#### Features/Benefits

- 5 layer PE and EVOH construction provides same chemical resistance as Silver Shield/4H gloves
- Ideal for industrial laboratories or work environment where the possibility of chemical splash requires arm and body protection
- Booties can be worn as a liner under regular boots, or as a cover over shoes or boots
- Sleeves can be worn with Silver Shield gloves and/or apron. Provides additional protection for the upper arms and shoulders
- Apron protects against splashes and spills. Easily adjustable with attached ties
- Coat aprons was developed for people requiring additional splash protection

Series	Description	PR/BG	PR/Cse

# GENERAL PURPOSE GLOVES

North Safety Products has consistently lead the general purpose glove industry with new innovative products for light, medium and heavy duty industrial applications. We were the first in the industry to develop a PVC coated glove, and we haven't stopped there. Throughout our history, we have developed gloves that withstand the test of time. The Worknit HD provides comfort and protection to the automotive, steel, and materials industry (just to name a few). Along with our commitment to introduce quality gloves, as well as incorporating the latest technology, we bring to you, our valued customers, new products offering quality, comfort and performance.

## LIGHT DUTY CUT & SEW NITRILE

## GRIP-N HOT MILL

51/7146

### Features/Benefits

- Provides protection against intermittent heat up to 400° F
- Nitrile palm coating provides excellent grip and longer life
- Knitted design allows hands to breathe, unlike cut/sewn hot mill gloves
- Ambidextrous design gives wearer four sides for maximum economy

### Ambidextrous - Knit wrist - Resistant to 400° F

Series	Description	PR/BG	PR/Cse
51/7146	Grip-N - Knit Hot Mill glove - brown nitrile N-Tread coating on both side - Sizes: 10XL (Men)	12	72

# CUT RESISTANT GLOVES

North has developed a complete line of Kevlar® gloves that includes everything from a 100% Kevlar® lightweight and heavy weight to cost effective plated gloves medium weight. We have also added to the offering, a medium and heavy weight Kevlar® glove with a long cuff, and PVC dots and thumb swipes on both sides, in order to give the user better grip and wear life. We have also included a full range of hot mill gloves made with an outer shell of Kevlar and cotton for cuts/shire protection and an inner shell of cotton/acrylic for insulation and users comfort. North's Hot Mill (H.M.) glove with wide cuff available in two styles one of those is covered with the famous "N" North nitrile coating to improve grip and abrasion resistance. We also offer the heavy double layer H.M. glove in gauntlet version of 13" (33 cm) and 15.5" (40 cm) as well as a plated Kevlar glove with leather palm for long life use.

## KEVLAR® GLOVES

### NORTH KEVLAR® SERIES\*

#### KNITTED KEVLAR® GLOVES

62/6703

\* Caution: These products contain natural rubber latex which may cause an allergic reaction in some individuals.

# GLOVE SELECTION GUIDE

## How to select and determine the most suitable glove for the job

A series of questions should be asked before we choose the glove needed to perform a certain task. It is very important to understand the level of protection needed.

### FIRST:

What kind of mechanical resistance is needed? Is there going to be a high level of abrasion resistance needed? What level of cut resistance is needed? Is there a danger of puncture and what will be the tear resistance?

### SECOND:

If the glove has to be used in a chemical environment, what type of chemicals will it be used in? What is the percentage of these chemicals? How long are the workers going to be in contact with these chemicals?

### THIRD:

What other factors could influence the glove choice? Will it be heat? Up to what degree? Will it be used in a cool environment? Will there be electrical or radiation hazards?

### FOURTH:

Which type of product does it have to be protected from? Food, electronic computer parts?

When all these questions have been answered, you should have a good idea on which product to use. In order to help you choose the right glove for the job, see the glove selection guide below.

General Application	Glove Type	Glove Series	Page
Asbestos Abatement	Natural Rubber, PVC	T254FL, T297FL, R20, B20	4, 12, 13
Assembly (General)	Uncoated, Coated String Knits	NF13,11RK, K711, K311,1216RK	18, 20, 22, 23
